

Launch of the PPL Learning Management System

PPL have launched an online Learning Management System (LMS). This is a central learning library where users will be able to access all the PPL training materials.

Access, through individual logins, will take learners to the relevant Broker or Underwriter area of the LMS and learning programmes, which are tailored to meet individual needs. There are visual indicators present, which enable the learner to measure their progress as they work through individual modules and tests.

The PPL Learning Management system consists of:

- **Training Videos** (*A library of bite-sized training videos covering the whole life-cycle of a risk from the view of a Broker and/or an Underwriter*)
- **User Guides** (*Comprehensive guides covering the life-cycle of a risk from the view of a Broker and/or an Underwriter*)
- **Quick Reference Guides** (*Concise guides on specific topics within the PPL Platform*)
